AFRICAN SURGERY BEST

WHITE U. S. MISSIONARY SAYS
NATIVES' MEDICAL KNOWL-
EDGE AHEAD OF THAT OF U. S.
A.

That the most finished products of the finest schools of medicine in this country could learn a lot from the native barbarians of Africa, is the belief of Dr. Mary F. Cushman of Needham, medical missionary on furlough from Orchilleso, Portugese West Africa. Dr. Cushman, a Boston University graduate, spoke to over 300 students and faculty members of the B. U. School of Medicine yesterday at Evans Memorial Auditorium.

Speaking on "Medical Conditions in Africa," Dr. Cushman described wonderful cures with herbs and mosses unknown to the medical authorities of this country. Among her remarks, Dr. Cushman made the statement that if any Boston specialist in surgery were to visit her district for a very short time he would learn a lot he never knew before of ways of taking care of advanced stages of diseases. The natives, she said, let their sicknesses go unattended so long that, in many cases, successful operations almost in the realm of miracles are performed.

Dr. Bailey to Talk on

Goiter at W. O. U. Clinic

Hot Springs, Ark., March 15.—The W. O. U. medical clinic, which opens March 18, is expected to attract wide attention, with representatives from many states taking part.

Among the prominent physicians who will lecture during the week is Dr. U. G. Dailey of Chicago, Ill., internationally known surgeon and head of the Dailey hospital, one of the finest of its kind in the country. Dr. Dailey will discuss the surgery of goiter and other topics, having to do with modern surgery. Dr. Dailey has appeared before clinics in many large cities and his lectures have been compiled in book form for use in leading colleges of medicine.

Dr. U. G. Dailey

The W. O. U. clinic in the spacious rooms of its sanatorium is keenly anticipated. A necessary and commendable development of the famous resort. Dr. John E. Byrd, chief surgeon; Dr. J. H. Brabin, chief of clinical staff; Dr. Ellis A. Kendall, general superintendent, and John L. Webb, secretary-treasurer.

Medical Society Meets

A special meeting of the Medico-Chirurgical Society was held in the auditorium of the Howard Medical School, Thursday night, which time a discussion of the following topics was held:

1. "Childhood Tuberculosis and Its Relation to Early Diagnosis," by Dr. J. W. Peabody, superintendent of Tuberculosis Hospital. Illustrated with 25 new lantern slides.

2. "Recent Laboratory Experiments as to the Transmission of Tuberculosis in the Home," by Dr. James G. Cumming, chief, Bureau of Preventable Diseases, D. C. Health Department.

3. New Motion Picture, "Consequences," dramatizing hopefully how a young mother attacked by tuberculosis was saved through its early discovery.

100 Many Physicians In Washington, D. C.

WASHINGTON, D. C., Sept. 26.—(C. N. S.)—There are more physicians in Washington, both colored and white, than anywhere else in the United States in proportion to the population, according to a statement issued recently by the Interior Department.

For the care of its 118,127,645 people the United States has 149,521 doctors of medicine, a greater percentage, with 20.59 per 100,000 population, than any other country.

The District of Columbia, the statement says, leads in the number of physicians in each state in proportion to each 100,000 residents, as well as the number for each 100 square miles.

The colored population, numbering about 120,000, receives services from 165 physicians, averaging 18 more per hundred thousand than the national average.

With several of each year's class from Howard settling here, an ever greater increase is expected.

Doctors began practice in 1923 at an average age of 27.8 years, including a year of hospital internship after the regular four-year course, the Federal Bureau of Education announced.

Of State Will Attend

Convention

Pensacola

NEGRO DOCTORS TO MEET HERE

State Organization To Hold
Convention April 2-4

Two hundred of the 235 negro physicians and surgeons in Florida will come to Pensacola during the first part of April to attend the annual conference of the Florida Medical, Dental and Pharmaceutical association, according to Dr. J. Lee Pickens, president of the Pensacola Academy of Medicine, the local negro doctors' organization.

Dr. Pickens said yesterday that in addition to the Florida doctors, many from Alabama and Georgia also are expected to come here for the three day conference, April 2, 3 and 4.

Dr. E. F. Aarons, of Pensacola, is president-elect of the association. He will succeed Dr. Dallas Carter, of St. Petersburg.

"This will be the first time in the 36 years the Florida Medical, Dental and Pharmaceutical association, that a convention has been held in West Florida," Dr. Aarons said last night.

"It is because of the geographical location of this city with reference to the rest of the state that we have never been able to bring the members here before, and we are much gratified to be able to report that 85 per cent of the membership have signified that they will come here in April.

"The meeting held last year in Jacksonville was very successful, and we are doing everything we can in Pensacola to make this year's convention successful."

Negro doctors from all parts of Florida will come here Tuesday to attend the 35th annual convention of the Florida Medical, Dental and Pharmaceutical Association. The convention will be held in Magee hall, at the corner of LaRue and Alcaniz streets. Special clinics will be held each morning during the convention, opening at 8:30 a. m.

Delegates to the convention will visit negro schools of the city during the week, and will talk to the students as a part of the observance of National Negro Health week. Eight physicians from Mobile have accepted an invitation to attend and will be special guests of local negro doctors.

The welcome session of the meeting will be held Tuesday night at Allen Chapel. Dr. J. Lee Pickens, president of the local association, will preside. A public health program will be given at Greater Mt. Zion Baptist church, with Dr. E. C. Moon in charge. The annual reception for delegates will be given at Armory Hall Thursday night.

Officers of the negro doctors' association are: Dallas Carter, of St. Petersburg, president; Edward F. Aarons, Jr., of Pensacola, president-elect; H. G. Floyd, Palatka, secretary; T. L. Jefferson, West Palm Beach, treasurer; J. E. Emmanuel, Miami, chairman of the dental section; C. H. Leggett, St. Petersburg, secretary of dental section; R. E. Smith, St. Augustine, chairman of pharmacy division; E. W. Priestly, secretary of pharmacy division.

The state executive committee is composed of C. F. Duncan, Jacksonville, R. P. Preer, Pensacola, E. C. Hampton, Ocala, John R. Scott, Miami, and L. H. B. Foote Tallahassee.

Free clinics for needy negroes who require medical or surgical attention will feature the three-day convention of the Florida Medical, Dental and Pharmaceutical association in Pensacola this week, according to Dr. E. F. Aarons, Jr., of Pensacola, president-elect of the association.

One hundred negro physicians, dentists and pharmacists from all parts of the state will attend, Dr. Aarons said. The convention will begin with scientific sessions Tuesday morning, April 2.

Dr. Arms To Talk

Dr. B. F. Arms, of the state board of health, will deliver an address at the public health meeting Wednesday night at Mt. Zion Baptist church, it was announced.

Dr. Aarons said the general public is invited to this meeting as well as to the opening at Allen chapel Tuesday, in order that they may see evidence of the progress of the race.

The visitors will be formally welcomed to the city Tuesday by Dr. E. S. Cobb, of Pensacola. A response will be delivered by Dr. C. F. Duncan, of Jacksonville.

Simultaneously with the convention National Negro Health week will be observed here. This is a national institution founded 15 years ago by Booker T. Washington, Dr. Aarons said.

To Visit Schools

The visiting physicians, dentists and pharmacists will visit the negro schools and lecture on health topics in observance of National Negro health week.

Dr. Aarons requests that all persons who need medical or surgical attention at the clinics apply to one of the local negro physicians before Tuesday, to be properly directed as to where and to whom to go.

General

Data on American Dentists, Pharmacists,
2644 NEGRO STUDENTS MEDICINE

Washington, D. C., Aug. 8.—(By
J. N. S.)—During the past five
years Negro medical students have
enrolled in thirty medical schools,
among which are the finest in the
United States and Canada.

Of the 2,644 Negro students who
have been enrolled, 556 have received
medical degrees, 475 of whom
were graduated from the medical col-
leges at Howard University and Me-
harry and 111 graduated from other
medical schools in the United States
and Canada.

During this period 2,193 students
were enrolled at Howard University
and Meharry and 451 students en-
rolled in the other schools, making
an average, during the period men-
tioned, of 529 students enrolled each
year, of whom 117 graduated.

Since 1926 the enrollment in white
medical colleges has decreased al-
most 30 per cent. This is accounted
for partly by the increased facilities
provided for professional training at
both Howard and Meharry, but is
partly due to the reluctance with
which colored students are received
at several of the leading institutions
offering medical training.

Negro medical students have been
graduated from the following med-
ical colleges during the past five
years:

Georgia Medicos Prep For State Meeting

Dr. Edwin J. Turner of Columbus, president of the Georgia State Medical Association, is in the city this week attending a conference with the local committee which will have charge of the next session of the association to be held here May 13, 14, 15 and 16.

Dr. Turner who is one of the most widely known physicians in the state, is very enthusiastic over the coming sessions of the association and expects it to be one of the largest and most profitable meetings in the history of the organization.

The conference which Dr. Turner is to hold with the local doctors is scheduled for tonight, Thursday.

The above is the likeness of Dr. M. Perry Sessoms, who was elected Monday night to the city council as one of the two city Negro physicians, he being assigned to the east-side.

Dr. Sessoms, born and reared in Powellsville, 24-29 received his literary training at Hampton Institute, Virginia, and took his medical course at Leonard Medical School in North Carolina, receiving the M. D. degree in 1906.

He practiced in Waycross several years and came to Savannah in 1922, where he allied himself with the various progressive movements of the city. He has served constantly in the Tubercular clinic, the Children's Free clinic and at allotted intervals in Charity hospital, some months ago being given charge of the nurse training department of that institution, where he is now on the faculty and fills the chair as teacher of children's diseases.

Dr. Sessoms has taken post graduate work at the St. Agnes hospital, Polyclinic hospital and the Douglas hospital, all of Philadelphia. He is superintendent of the Sunday school of the First Bryan Baptist church and a leader in the activities of that church.

Dear Doctor:

The Georgia State Medical Association of Physicians, Dentists and Pharmacists desires to be your one absolutely unselfish friend. The association desires to imbue your soul with homely pride. It desires to refute the oft repeated assertion that the Negro is incapable of organizing for self protection. It desires to help you and your family community when others assail you. It desires to help you and your family if distress overtakes you. It craves the benefit of your prestige, wis-

dom and brotherhood.

"The Georgia State Medical Association will convene May 13, 14, 15, and 16 at Savannah, Georgia. Of all the Medical meetings you have planned to attend this year, do not fail to attend this "home meeting." "Charlity begins at home and casts itself abroad." We have much to do in the way of placing the Georgia State Medical Association on a sound business basis. You are a Georgian by birth or adoption and you cannot escape the honor for its success nor the ridicule for its failure. Outsiders will wisely say, "if you do nothing for your home Association you can do very little for us."

"Every physician, dentist and pharmacist should take this opportunity to attend the Savannah session, as well as to see and observe the progress made by the members of the profession there.

"Clinics in colored hospitals; surgical operations performed by Negro surgeons; dental clinics held in offices equipped with modern facilities; chain of drug stores owned and operated by Negro pharmacists.

"We are expecting 300 Negro physicians, dentists, and pharmacists at Savannah, May 13-16, in a greater Georgia State Medical Association."

PREPARING FOR THE DOCTORS' CONVENTION

Much Entertainment to be Given Visitors

Preliminary plans have been perfected for the entertainment of the Georgia State Medical Association

of Physicians, Dentists and Pharmacists, which meets in this city, May 13th to 16th, inclusive.

The local publicity and entertainment committee which is headed by Drs. S. F. Frazier and J. H. Eberhardt, stated to a Tribune reporter this morning that they are expecting at least two hundred visiting doctors to attend the coming session of the convention. They also stated that as the committee is making elaborate plans for the pleasurable side of the convention they felt sure that the majority of the out of town doctors would be accompanied by their wives, which will add to the influx of strangers during the four days the convention will be in session.

Among the pleasure features which will be afforded the visitors will be a boat ride to the ocean and a public reception at McKelvey-Powell auditorium.

President E. J. Turner of Columbus, in a statement to the local committee stated recently that he expects the biggest attendance at the coming meeting that the convention has experienced in recent years. Dr. Turner has just finished a tour of the state, interesting the doctors in the works of the convention; and it is quite likely that his recent trips to all the larger towns and cities will be reflected in an unprecedentedly large attendance at next month's meeting.

At any rate, the local committee is planning for a very large attendance and to give the visitors a "whoopee" of a time while here.

**NEGRO STATE
MEDICAL MEET**
**Funeral Directors Also to Be
Here in May**

The Negro State Medical Association will meet in Savannah for a four days' session beginning May 13, and plans are now being made by the local association to entertain the visitors during their stay in the city. Dr. H. M. Collier is president of the local organization and has appointed a committee on program and arrangement consisting of Drs. I. D. Williams, S. F. Frazier, E. J. Smith and N. W. Esste.

At a meeting last night the committee formulated plans for the public exercises and a banquet which will be given the delegates. Plans are also being made to give the visitors a boat ride during the last day of the meeting.

Aside from the regular business of the association there will be public health meetings with talks and lectures by specialists and experts on many vital subjects touch-

ing on scientific methods and preventative measures in combatting many common and dangerous diseases. Dr. E. J. Turner of Columbia, is the state president and he is expected in the city next week to offer suggestions in making up the program for the business sessions.

The State Funeral Directors Association will also meet here during the same week and committees from the two organizations are co-operating and arranging some of the public meetings and entertaining features jointly in order that the local interest and attendance will not be divided. L. M. Pollard is president of the local Funeral Directors Association and has appointed Paul J. Steele, Nathan Roberts, E. O. Powell and Sidney A. Jones to make all necessary preparations for the delegates attending this convention.

There will be several more colored conventions to meet in Savannah during the year, including the State Teachers Association and one or two fraternal conventions and church conferences. They will all be largely attended since Savannah offers such a variety of entertainment and bears the reputation of being such a beautiful and hospitable city.

STATE MEDICOS HOLD SUCCESSFUL MEET AT SAVANNAH

The annual session of the Georgia State Medical Association that has been in session here since Monday evening closed its business session last night at 10 o'clock with the re-election of Dr. E. J. Turner of Columbus president for another term.

Dr. E. J. Smith, a leading local physician who was prominently mentioned to head the organization, was chosen for the first vice president, succeeding himself and holding the position for promotion next year. The Friends of Dr. Smith contended that in accordance with precedent he should be selected to head the organization and when the nomination committee read its report recommended all old officers for re-election Dr. B. W. S. Daniels arrested the report and made a strong plea for the substitution of the name of Dr. Smith for that of Dr. Turner. This resulted in a close contest for the major office.

Georgia Medicos Preparing For State Meeting

Dr. E. J. Turner, President in City Confering With
Committee on Arrangements

Dr. Edwin J. Turner of Columbus, president of the Georgia State Medical Association, is in the city this week attending a conference with the local committee which will have charge of the next session of the association to be held here May 18, 14, 15 and 16.

Dr. Turner who is one of the most widely known physicians in the state, is very enthusiastic over the coming sessions of the association and expects it to be one of the largest and most profitable meetings in the history of the organization.

The conference which Dr. Turner is to hold with the local doctors is scheduled for tonight, Thursday, at the home of Dr. H. M. Collier, Monday at 1002 West 37th street. Final arrangements for the state meeting will be perfected at the conference and plans laid to attract a record attendance of physicians, dentists and pharmacists.

In order to acquaint the members of the organization with the various features of the coming meeting Dr. Turner has sent to each member of the association the following circular letter, which will, no doubt, have its effect in attracting a large attendance to the Savannah session of the association:

Dear Doctor:
The Georgia State Medical Association of Physicians, Dentists and Pharmacists desires to be your one absolutely self-interesting friend. The association desires to imbue your soul with home pride. It desires to refute the oft repeated assertion that the Negro is incapable of organizing for self protection. It desires to help you and your family community when others assault you. It desires to help you and your family if distress overtakes you. It craves the benefit of your prestige, wisdom and Georgia State Medical Association

Dr. Sessoms has taken post graduate work at the St. Agnes hospital, Philadelphia and the Douthett hospital, all of Philadelphia. He is superintendent of the Sunday school of the First Bryan Baptist church and a leader in the activities of that church.

Much Entertainment to be Given Visitors

Preliminary plans have been perfected for the entertainment of the Georgia State Medical Association

of Physicians, Dentists and Pharmacists. During on scientific methods and preventive measures in combating many common and dangerous diseases. Dr. E. J. Turner of Columbus, is the state president and he is expected in the city next week to offer suggestions in making up the program for the business sessions.

The State Funeral Directors Association will also meet here during the same week and committees from the two organizations are co-operating and arranging some of the features jointly in order that the public meetings and entertainment will not be divided. L. M. Folger, president of the local Funeral Directors Association and has accompanied by their wives, which will add to the influx of strangers during the four days the convention will be in session.

Among the pleasure features colored conventions to meet in Savannah which will be afforded the visitors vernal during the year, including a public reception at McKelvey and Powell auditorium.

President E. J. Turner of Columbus, in a statement to the local committee stated recently that he expects the biggest attendance at the coming meeting that the convention has experienced in recent years. Dr. Turner has just finished a tour of the state, interesting the doctors in the works of the convention; and it is quite likely that his recent trips to all the larger towns and cities will be reflected in an unprecedentedly large attendance at next month's meeting.

At any rate, the local committee is planning for a very large attendance and to give the visitors a "whoopie" of a time while here.

NEGRO STATE MEDICAL MEET

Funeral Directors Also to Be
Here in May

The Negro State Medical Association will meet in Savannah for a four days' session beginning May 12, and plans are now being made by the local association to entertain the visitors during their stay in the city. Dr. H. M. Collier is president of the local organization and has appointed a committee on program and arrangement consisting of Drs. I. D. Williams, S. F. Frazier, E. J. Smith and N. W. Este.

At a meeting last night the committee formulated plans for the public exercises and a banquet which will be given the delegates. Plans are also being made to give the visitors a boat ride during the last day of the meeting.

Aside from the regular business of the association there will be public health meetings with talks and lectures by specialists and experts on many vital subjects touching on scientific methods and preventive measures in combating many common and dangerous diseases. Dr. E. J. Turner of Columbus, is the state president and he is expected in the city next week to offer suggestions in making up the program for the business sessions.

At any rate, the local committee is planning for a very large attendance and to give the visitors a "whoopie" of a time while here.

STATE MEDICOS HOLD SUCCESSFUL MEET AT SAVANNAH

The executive committee for two years are R. H. Brooks, M. D., Atlanta; R. S. Smith, M. D., Macon; J. H. Eberhardt, Phar. D., Savannah; and A. B. D. S. Atlanta. The next place of meeting will be selected by the executive committee at its first meeting which will be held in Atlanta.

The annual session of the Georgia State Medical Association that has been in session here since Monday evening closed its business session last night at 10 o'clock with the re-election of Dr. E. J. Turner of Columbus president for another term.

Dr. E. J. Smith, a leading local physician who was prominently mentioned for the first vice president, succeeding himself and holding the position for promotion next year. The friends of Dr. Smith contended that in accordance with precedent he should be selected to head the organization and when the nomination committee held its re-nomination committee and officers for re-election Dr. B. W. S. Daniels arrested the report and made a strong plea for the substitution of the name of Dr. Smith for that of Dr. Turner. This resulted in a close contest for the major office, resulting in the election of the Columbus physician by a close margin of thirty-three to twenty-six, the name of Dr. Smith being retained for second place as reported by the committee.

The other officers elected are Dr. Eberhardt, Savannah, president, J. Waymond Reeves, general secretary, Atlanta; Dr. M. B. Hutto, Athens, secretary. The officers

Expressions of appreciation were offered by the association for the splendid hospitality extended by the citizens of Savannah and thanks were also given to the local papers for the generous space given the activities of the sessions. Many of the visitors were charmed with the beauty of the city and expect to come again at the first opportunity.
—Savannah Morning News.

CALL MEETING OF DRUGGISTS ON SOUTH SIDE

In order that concerted action may be taken against the Golden Brown Chemical company as a result of the now notorious "darky letter," released by that company to druggists all over the United States, Dr. William H. Huff, proprietor of the Pythian pharmacy, in the Pythian building, 37th place and State street, has sent out a notice to all druggists to be present at a huge meeting to be held Thursday, March 14, for the purpose of organizing druggists on the south side to fight this and other battles that might be of interest to the profession. The letter is as follows:

My Dear Fellow Druggists:

A great number of my friends in the profession have asked me to lead the fight for the organization of the Druggists of our group for our mutual protection and welfare. I have consented to issue the call and lead the fight with the reservation that the organization be, "All for one and one for all; that there be no big "I's" and no little "u's"; that petty politics and petty jealousies be taboo. "What we need and what we must have is an organization that will function. To talk is one thing; to act is quite another—I believe in action.

If you are interested, forget the Street, at 1:30 p. m., Thursday, past and come out to 3735 So. State March 14.

You are eligible for membership if you are identified with the retail Drug Business as an unregistered Proprietor, as a R. Ph., asst Ph., Graduate Ph., or Apprentice Ph.

Don't forget the date, don't forget the place and don't fail to show up.

Fraternally yours,
William Henry Huff.

Letters Still Coming

In the meantime, the offices of THE CHICAGO WHIP are still being deluged with letters from druggists pledging themselves to join the fight against the prejudiced white Golden Brown company and never again to handle Golden Brown products.

W. T. Durroh, of the Apex pharmacy, 45th street and Evans avenue, writes as follows:

Chicago, Ill., March 11, 1929
Editor of the Chicago Whip,

Dear Sir! Receive my congratulations for your expose of the cheap tawdry method employed by the Golden Brown Chemical Co., of Memphis, Tenn., in their attempt to exploit the weakness that is found in all ignorant and unenlightened people of every race to their advantage.

I also received one of their circulars but after having read the salient mess it became so odious and loathsome to me that I quickly threw the whole southern race-prejudiced unspeakable propaganda in the furnace with the hope that every other druggist regardless of race who believed in the principles of true American business ideals would do likewise.

Yours

W. T. Durroh, PhC.
Apex Pharmacy,
4500 Evans avenue,
Chicago, Ill.

One of Chicago's oldest druggists, George M. Porter, condemns the Golden Brown company's attitude thus:

The Chicago Whip,
Pythian Temple,
Chicago, Ill.

Dear Sirs:—

I have been a druggist for nearly a quarter of a century and I have never seen anything so reprehensible as the attitude of Golden Brown Chemical Co. in its recent letter to the trade in which they refer to our people as "darkies."

Wish to let you know that The WHIP has my co-operation in letting the public know just what they think of us.

Sincerely yours,

George Porter, R. Ph.
Another expression comes from Herman Martin, 660 E. 47th street:

CHICAGO WHIP,
Gentlemen:—

I wish to congratulate you on the manner in which you have told the public about the low and contemptible sales tricks of Golden Brown Chemical Co. Wish you to know that I'll tell all my customers just what appraisal this concern puts on our trade. Be further assured that I'll not handle any more of these products.

Very truly yours,

Herman Martin.

Others Comment

In addition to these and other letters, here were many who made verbal comments in bitter terms. H. Cogbill and M. G. Pleasant of Rankin's pharmacy, literally frothed at the mouth when commenting on the Golden Brown communication, and both said it was time to

show them that we cannot be insulted and, still spend our money with those who have given the insult.

Fred Williams, 47th street and Champlain avenue, who was one of the first to receive one of the letters, has disposed of all his stock of Golden Brown products, and declares that never will he sell another article made by "those southern crackers" who think we are still slaves."

Similar comments expressing determination to fight to the bitter end the battle to show the prejudiced white southern company that the American black man puts his race pride above his pocketbook came from William Taylor, 51st street druggist and Marco Killings, of 29th and State streets. These, too, declared in effect that no Golden Brown product will disgrace their shelves in the future.

DR. HENRY E. HAMPTON
MAKES HIGHEST GRADE
BEFORE NAT'L MED. BOARD

It has just been announced that Dr. Henry E. Hampton, a senior physician at City Hospital No. 2, attained the highest ranking grade in Part Two in a nation-wide examination conducted by the National Board of Medical Examiners which was held in June.

In taking Part One of the same examination *Aug 20-24* Hampton was among the highest ranking ten out of nearly five hundred contestants from all parts of the United States and Canada, with such schools as Harvard, Johns Hopkins, Rush, Northwestern and similar institutions furnishing the largest number of applicants.

Dr. Hampton received his college training at Fisk University in '23 and his medical training at Meharry Medical College where he graduated in '28 with highest honors.

He expects to take Part Three, the final examination of the National Medical Board, next spring. Those who make the necessary grade in the final examination are awarded a certificate which is recognized in forty-eight states and territories as well as in some of the foreign countries.

THE MISSOURI PAN-MEDICAL ASSOCIATION

The Missouri Pan Medical Association will convene in the salon of Peoples Building, Monday, May 27th and the session will last three days. Physicians from all over the state are expected. The local men have arranged quite a program for their entertainment. *Aug 24-29* A public meeting will be held Monday night at 8:30 p. m. at First Baptist Church, where an address of welcome will be delivered by Rev. O. C. Maxwell, also a health program by the local Nurses Association, music by the First Baptist and All Saints Choirs. The public is invited. Later there will be a smoker. *St. Louis, Mo.* The public is invited. Later there will be a smoker for the visiting doctors and Tuesday, May 28th, a dance at Peoples Auditorium. The Pan Missouri Nurses Association will be in session at the same time. The officers of the Association are: W. H. Bruce, M. D., president, Kansas City; W. R. Williams, M. D., President Elect, St. Louis; R. G. Richardson, M. D., Vice president, Jefferson City; W. B. Christian, M. D., Secretary, St. Louis; I. W. Brown, M. D., Treasurer, St. Louis.

DOCTORS' CONVENTION IN NEWARK, N. J. 1930 MEDIC SESSION TO INDIANAPOLIS

Dr. W. H. Higgins, Rhode Island Delegate, Made President

OFFICERS RE-ELECTED
WEST PRESIDENT
Theresa Waters Named Vice-President.

NEWARK, N. J.—The thirty-sixth annual convention of the National Medical Association, which was in session here from August 25th, through the 30th, is reported as the most successful scientific and social gathering in the history of the organization. Medical, surgical and dental clinics were surprisingly instructive and proclaimed as the greatest. The pharmaceutical section was given demonstrations of the New Jersey College of Pharmacy by Drs. Adolph F. Marinquer, L. K. Riggs, and Wm. Myri, the latter of Vienna, which the pharmacists attending claimed to have been greatly beneficial. Among the visiting medical and dental surgeons performing delicate operations were Drs. P. M. Murray, New York; A. M. Curtis, E. C. Terry, Willard Lane, Washington D.C.; Abraham Reich, Max Danzis and Charles Rollins, of Beth Israel Hospital; Ruth J. Temple, Los Angeles; C. R. O'Crowley, J. B. Davidson, of the dental surgical unit.

The social program was sanely arranged, which did not conflict with any of the scientific programs yet all were well attended. The social activities closed with a dance at the Orange, N.J., Armory.

Dr. Higgins, President
Dr. W. H. Higgins of Providence, R.I., was elected to the presidency, and strangely, all of the other officers without a single exception were re-elected. The executive board had many applications for next year's sessions, which finally narrowed down to Atlantic City and Indianapolis. Indianapolis finally was selected, and the 1930 convention was advanced one week meeting in that city on August 17, 1930.

Among the District of Columbia delegation were Doctors W. H. Wilson, Willard M. Lane, C. A. Wright, W. S. Savoy, E. F. Harris, S. J. Lewis, A. M. Curtis, E. C. Terry, E. H. Allen, W. H. Foster and S. D. Savoy. Dr. W. H. Jack

attended the formal exercises of welcome on Monday evening, and much interest was displayed by a mammoth crowd at the public health meeting on Tuesday evening, when birth control was the subject of discussion.

An event of exceptional interest was the visit and entertainment of the dental section at the dental surgical unit of Dr. J. B. Davidson, and equally interesting was the meeting and reception of the pharmacists at the New Jersey College of Pharmacy.

Officers

The following officers were elected for the ensuing year:

L. A. West, M.D., Memphis, president; William M. Higgins, M.D., Providence, president-elect; William H. Thorne, M.D., Charleston, S.C., vice-president; Dudley G. King, D.S., Pittsburgh, vice president; Theresa F. Waters, Ph. G., Baltimore vice-president; W. G. Alexander, M.D. Orange, N.J., general secretary; C. P. McClendon, M.D., New Rochelle, N.Y., assistant secretary; J. R. Levy, M.D., Florence, S.C., treasurer; J. H. Blackwell, M.D., Richmond, assistant treasurer.

Indianapolis

The association will meet in 1930 in Indianapolis, Indiana, August 17 to 23.

NEWARK, N. J., Aug. 22.—When the thirty-fourth annual session of the National Medical Association convened in Newark, August 26-30 it will bring to the city, whose slogan is, "Newark Knows How," one of the most distinguished groups of visitors that has ever been gathered in the New Jersey metropolis.

Dr. Numa G. Adams of Chicago, who was recently made dean of the medical department of Howard University, will call to order, as president, the National Association of Life Insurance Medical Examiners. This organization is one of the integral parts of the National Medical Association.

The guest speaker for this meeting will be Dr. Lewis F. MacKenzie, assistant medical director of the Prudential Life Insurance Company, who has chosen for his address, "Apparent Circulatory Impairments in Life Insurance Examinations." Another speaker for this meeting will be Dr. S. A. Sidat-Singh of New York City.

Dr. H. M. Green, president of the National Hospital Association, announces an interesting program for that organization, which meets on Monday, August 26, 1929.

Opens Monday

The formal exercises of welcome will be held on Monday evening, August 26, 1929.

On Tuesday, August 27, at West Side high school, South Orange avenue, the regular sessions of the association will begin, when Dr.

MRS. CHARLOTTE WALLACE MURRAY

Will direct a musicale in honor of the visiting ladies to the National Medical Association convention in Newark next Wednesday.

Thomas Spotuas Burwell of Philadelphia, chief of the medical service of Douglas Hospital and associate in the tuberculosis division of Jefferson Hospital, will deliver the presidential address. On Tuesday afternoon, the medical, surgical, dental and pharmaceutical sections of the leaders in these cognate professions will appear on the program.

On Tuesday evening, August 27—

at the West Side high school, the annual public health meeting will be held. Dr. C. V. Roman of Nashville, Tenn., will deliver an address, entitled, "What About Birth Control," and Dr. D. A. Ferguson of Richmond, Va., past president of the National Medical Association and past president of the Interstate Dental Association, will deliver an address on "Oral Cavity Conditions as Factors in Race Morbidity and Race Mortality."

On Wednesday, medical and surgical clinics will be held at Beth Israel and Newark City hospitals. Some of those who will take part in these clinics are: Drs. H. S. Martland, Teimer, Horsford, Teeter and Epstein of the City Hospital staff and Drs. U. G. Dailey, Chicago; E. C. Terry of the department of medicine, Howard University; J. W. Granady of Harlem Hospital; Willard Lane of Freedmen's Hospital, Washington, D. C.; W. S. Grant, Chicago, and Ruth J. Temple of Los Angeles, Cal., who is introducing an unusual clinic in obstetrics.

Many Clinics

On this same day, there will be clinics for the dental section by Dr. E. B. Jefferson of Nashville and Dr. Walter F. Barry of Newark, and for the pharmacists, addresses will be given by Dr. Adolph Marquier of the New Jersey College of Pharmacy, Mr. J. A. Jackson of the department of commerce, Washington, D. C., and Dr. William Nyiri, formerly of the University of Vienna and now professor of experimental pathology in the New Jersey College of Pharmacy.

On Thursday, clinics will be held simultaneously at Wright's sanitarium and Kenney Memorial hospital. Among those conducting clinics at these two places will be Drs. Bancroft and Walter Gray Crump of New York City, J. H. Hales, Nashville; Richard H. Miller of Massachusetts General Hospital, Boston; Frank C. Boston, Mercy Hospital, Philadelphia; R. C. Giles, Chicago; J. W. Ross and H. R. Burwell, Freedmen's Hospital; U. G. Dailey, Chicago. There will also be X-ray lecture and demonstration by Dr. Rudolph Fisher of New York and a physiotherapy clinic by Dr. Charles R. Brooke, chief of U. S. Veterans' Hospital, New York City.

On Thursday afternoon, there will be scientific and business sessions by the medical, surgical, dental and pharmaceutical sections. The dentists, on Thursday morning, will have a series of clinics conducted by the clinic group of the New Jersey Dental Society (white) and in the late afternoon the dental section will be the guests of the Surgical Dental Unit, conducted by Dr. Davidson and staff.

The pharmacists will visit, on Thursday, the various pharmaceutical manufacturing plants in

North Jersey Friday Busy Day

Friday morning, there will be clinics for the medical and surgical sections in pediatrics and tuberculosis. Addresses will be delivered by Dr. Julius Levy of the Child Hygiene division of the Newark City Health Department; Dr. S. B. English, superintendent of the Gardner (state) Tuberculosis Sanatorium, and Dr. Harry M. Minton, Mercy Hospital and Phipps Institute for Tuberculosis, Philadelphia. An oration in medicine will be delivered by Dr. C. V. Roman, Nashville, and an address on "Progress in Medicine and Surgery," by Dr. Richard H. Miller of Boston.

On this same morning, there will be demonstrations and clinics in X-ray work for the dental section, and roundtable discussions by the pharmacists.

The final session will be held on Friday afternoon, when new officials will be elected.

Ladies To Be Feted

The Ladies Auxiliary is preparing for a series of events for the entertainment of the visiting ladies to the convention. Among these will be a reception on Tuesday afternoon at the Orange Y. W. C. A. and a musicale, under the direction of Mrs. Charlotte Wallace Murray, or Wednesday at the Y. M. Y. W. Hebrew Association auditorium. There will also be a reception for the ladies on Thursday morning, tendered by the Y. W. C. A. of Newark.

The city of Newark has extended an invitation for a visit to the Newark airport and the reception in honor of the visiting delegates will be held on Friday evening at the Orange Armory.

CLINICS TO BE FEATURE OF N. M. A. CONVENTION

Newark Hospitals Break Rule in Opening Clin- ics to Visitors

NEWARK, N. J.—The local committee of arrangements for the entertainment of the National Medical Association meeting, August 26 to 30, has completed all of its plans for the 34th annual session of that organization.

The meeting will be exceptional in the fact that most of the time will be devoted to clinics, and also exceptional in the fact that unusual contacts have been made for the presentation of the clinics.

The medical and surgical clinics

will be held at the new Beth Israel Hospital and the Newark City Hospital. There will also be clinics at Wright's Sanatorium and the Kenney Memorial Hospital. The authorities of the Beth Israel and the Newark City Hospital have waived their ironclad rules in permitting physicians and surgeons to carry out the clinics in these hospitals.

Dr. O. A. Webb, chairman of the local pharmaceutical committee, has arranged an extensive program for the pharmacists. The New Jersey College of Pharmacy (the Pharmaceutical Department of Rutgers University) will be open one entire day for addresses and demonstrations in pharmacy.

Visits will be made to the Maltbie Chemical Company, Schering and Glatz, Scott and Bone, Merck and Company, Squibb and Company, and Johnson and Johnson.

Dr. W. W. Wolfe, chairman of the housing committee, has made extensive arrangements for the accommodation of visiting delegates and friends.

TO PRESIDE

DR. NUMA P. G. ADAMS
newly made Dean of the Medical
Department of Howard University

will call to order, as president of the National Association of Life Insurance Medical Examiners in Newark, N. J., this week.

THE NATIONAL MEDICAL ASSOCIATION

That our doctors, dentists and druggists should be able to celebrate their 25th annual assembly in conference upon conditions in their profession is praiseworthy and evidence of race progress.

The list of their assignments shows scientific attitude. The entrance into the city hospitals at Newark, after so many conferences there, is evidence of appreciation of their work. That so few out of the total professional list shall be in attendance, and that so much time be given to social affairs, are regrettable circumstances.

The Negro is not a healthy people for many reasons. His economic status does not lead him to secure medical advice and attention with that readiness which modern life demands. The doctors need to give some attention to the Public Health phases of their profession. They need to give more attention to making the public "Health Conscious."

One outcome of these conventions should be some plan formulated for securing state, municipal and federal aid and attention to the needs of their people. There are too many sick people among us and sickness is still regarded as an excuse for lack of performance of duty. We need to make Health a religion.

The demands of our children, before and immediately after birth are not met; they are disgraceful. There is need for specialists in children's diseases, and some concerted attack upon the poor conditions surrounding maternity. Big cities need maternity hospitals for our folks, and clinics for our children.

The time when doctors become famous for their fine cars and big houses is past. We now demand that they become known for their service and skill in certain special conditions of Negro health.

Arising out of race prejudice, the call of the Negro physician is to the service of the particular group which needs him, and which he is sworn to serve.

The whole program in the Medical Convention is too academic, and not sufficiently social in the larger sense in which the doctor has become an agent of the greater tomorrow.

Think it over, gentlemen and ladies.

National Medical Association to Have Distinguished Guests at Newark National Hospital Association and Life Insurance Examiners to Meet at Same Time and Place

When the thirty-fourth annual session of the National Medical Association convenes in Newark, August 26-30, it will bring to the city, whose slogan is "Newark Knows How," one of the most distinguished groups of visitors that has ever been gathered in the New Jersey metropolis.

Dr. Numa G. Adams of Chicago, association, and in the eight years of who was recently made dean of the existence has brought together, medical department of Howard University, will call to order, as president, now engaged in the field of life insurance, the National Association of Life Insurance Medical Examiners.

This organization is one of the inter-an increase in its membership and ral parts of the National Medical practically all of the larger Negro in-

insurance com- es are actively inter-
ested in it. make special appeals
for its medical examiners to affiliate

Dr. Adams announces that the guest speaker for this meeting will be Dr. Lewis F. MacKenzie, assistant medical director of the Prudential Life Insurance Company, who has chosen for his address: "Apparent Circulatory Impairments in Life Insurance Examinations." Another speaker for this meeting will be Dr. S. A. Sidat-Singh of New York City. Dr. H. M. Green, president of the National Hospital Association, announces an interesting program of that organization, which meets on Monday, Aug. 26. The formal exercises of welcome will be held on Monday evening at Bethany Baptist Church.

On Tuesday, Aug. 27, at West Side High School, South Orange avenue, the regular sessions of the association will begin, when Dr. Thomas Spotuas Burwell of Philadelphia chief of the medical service of Douglas Hospital and associate in the tuberculosis division of Jefferson Hospital, will deliver the presidential address. On Tuesday afternoon the medical, surgical, dental and pharmaceutical sections will hold their meetings, and some of the leaders in these cognate professions will appear on the program.

On Tuesday evening, Aug. 27, at the West Side High School, the annual public health meeting will be held. Dr. C. V. Roman of Nashville, Tenn., will deliver an address entitled "What About Birth Control?" and Dr. A. Ferguson of Richmond, Va., past president of the National Medical Association and past president of the Interstate Dental Association will deliver an address on "Oral Cavity Conditions as Factors in Race Morbidity and Race Mortality."

On Wednesday medical and surgical clinics will be held at Beth Israel and Newark City Hospitals. Some of those who will take part in these clinics are: Doctors Martland, Teimer, Horsford, Teeter and Epstein of the City Hospital staff and Doctor J. G. Dailey of Chicago; E. C. Terry of the Department of Medicine, Howard University; J. W. Granady of Harlem Hospital; Willard Lane of Freedmen's Hospital of Washington, D. C.; W. S. Grant of Chicago, and Dr. Ruth J. Temple of Los Angeles who is introducing an unusual clinic in obstetrics.

On this same day there will be clinics for the dental section by Dr. E. B. Jefferson of Nashville and Dr. Walter F. Barry of Newark; and for the pharmacists, addresses will be given by Dr. Adolph Marquier of the New Jersey College of Pharmacy; J. A. Jackson of the Department of Commerce, Washington, D. C., and Dr. William Nyiri, formerly of the University of Vienna and now professor of Experimental Pathology in the New Jersey College of Pharmacy.

Clinics will be held simultaneously at Wright's Sanatorium and Kenny Hospital on Thursday. Among those

conducting clinics at these two places will be Doctors Bancroft and Walter Gray Crump of New York City; J. H. Hales of Nashville; Richard H. Miller of Massachusetts General Hospital, Boston; Frank C. Boston of Mercy Hospital of Philadelphia; R. C. Giles of Chicago; Marshall Ross of Harlem Hospital; H. R. Burwell of Freedman's Hospital, and U. G.

HEADS MEDICS

DR. L. A. WEST

NEWARK, N. J. Sept. 11—C
—The annual meeting of the
National Medical Association here
was one of the most elaborate
and successful programs ever pre-
pared for the scientific organiza-
tion.

The following officers were
elected: L. A. West, M. D., pres-
ident, Memphis, Tenn.; J. H. Hig-
gins, M. D., president elect,
Providence, R. I.; Wm. F.
Thorne, M. D., vice president,
Charleston, S. C.; Dudley G. Kin-
g, D. D. S., vice president, Pitts-
burgh, Pa.; Theresa F. Waters,
Ph. G., vice president, Baltimore,
Md.; W. G. Alexander, M. D.,
general secretary, Orange, N. J.;
J. P. McClendon, M. D., assist-
ant secretary, New Rochelle, N.
Y.; J. R. Levy, M. D., treasurer,
Florence, S. C.; and J. H. Black-
well, M. D., assistant treasurer,
Richmond, Va.

The association will meet in
1930 in Indianapolis, Ind., August
7 to 23.

JERSEY DENTISTS

SPLIT AWAY FROM

MEDICAL ASSOC'N

Want Own National Body

And Will Not Help As

Hosts Of N. M. A.

Paterson, N. J.—When the National Medical Association meets in Newark during August, 1929, the dentists of New Jersey will have nothing to do with it, according to a resolution purporting to have been adopted by them at a recent meeting.

The reason given by the dentists is that they are desiring to focus interest in the organizing of a national dental organization, and as a step toward that end had formally withdrawn from membership in the North Jersey Medical Society and to form an independent organization.

The resolution which was said to have been adopted reads as follows:

"While we gratefully appreciate the action of the North Jersey Medical Society in extending us the invitation to help entertain the National Medical Association in Newark during August, 1929, we feel that accepting such an invitation does not work fully in accord with the plans of this society, whose desire to focus interest in the formation of a Colored National Dental Association caused the members to withdraw from a dual society, the North Jersey Medical Society, and form an organization known as the 'New Jersey Dental Society.'

"And, therefore, this society will not participate in the entertainment of the National Medical Association next August."

Successfully For Clinics, Demonstrations

Newark, N. J.—Working under the slogan "Newark Knows How," the local committee of arrangements for the entertainment of the National Medical Association carried out the most elaborate and most successful program ever prepared for a meeting of the Negro's only scientific organization.

With clocklike precision, every feature of the program, including papers, addresses, clinics and social diversions, was carried out. Almost every paper listed on the dental and pharmaceutical, were well filled at each meeting. The social features were well chosen, but were so arranged that none interfered with the regular activities of the Convention.

The clinics were exceptional and the spirit of good will displayed by the staffs of the various hospitals was conducive to the success of a clinical program.

Ladies' Auxiliary's Work

The ladies auxiliary, under the direction of Mrs. Stella B. Wright, kept the visiting ladies well entertained, while the delegates were busy attending sectional meetings and clinics. On Tuesday afternoon, a reception was held at the Y. W. C. A. in Orange. On Wednesday morning, a musicale was given at the Y. M.—Y. W. H. A. in Newark, and some of the race's finest artists were presented. On Thursday afternoon, there was a brilliant card party at the Central Y. W. C. A., Newark.

Both the delegates and their wives were entertained at a smoker on Tuesday evening, a picnic on Wednesday evening, and the final reception on Friday evening.

A large and enthusiastic gathering attended the formal exercises of welcome on Monday evening, and much interest was displayed by a mammoth crowd at the public health meeting on Tuesday evening, when "Birth Control" was the subject of discussion.

The following officers were elected for the ensuing year:

L. A. West, M. D., president, Memphis, Tenn.; William H. Higgins, M. D., president-elect, Providence, R. I.; William M. Thorne, M. D., Charleston, S. C.; Dudley E. King, D. D. S., Pittsburgh, Pa., and Theresa F. Waters, Ph. G., vice-presidents, Baltimore, Md.; W. E. Alexander, M. D., general secretary, Orange, N. J.; C. P. McClendon, M. D., assistant secretary,

New Rochelle, N. Y.; J. R. Levy, M. D., treasurer, Florence, S. C.; J. H. Blackwell, M. D., assistant treasurer, Richmond, Va.

The Association will meet in 1930 in Indianapolis, Ind., August 17 to 23.

DOCTORS ANNUAL

MEETING MARKED

Dr. Joseph Carter Is

Admitting Physician

At Harlem Hospital

For the first time in New York a Negro doctor has been appointed as admitting physician of Harlem Hospital. The appointment was made by Acting Commissioner Edward E. Cadley of the Department of Hospitals last Wednesday.

The doctor to be so honored is Dr. Joseph Carter of Asbury Park, graduate of Brown University and the Howard University Medical School. Dr. Carter was a star football player at Brown being halfback of the team during the 1921 and 1922 seasons. Besides reaching football heights, he was for three years the intercollegiate champion of New England in the 100-yard dash.

Graduating from Brown in 1923 he took up his medical course at Howard and upon graduation spent a year as an interne in the Freedman Hospital, Washington, D. C.

In his position as admitting physician, Dr. Carter will pass on all persons coming into the hospital and will decide whether the patient shall stay at the hospital and receive treatment or be sent home.

NEW YORK JOURNAL

NOV 16 1928 NEGRO TRACK CHAMPION PUT ON HOSPITAL STAFF

Dr. Joseph Carter, former negro halfback on the Brown University football team, and for three years New England intercollegiate champion 100-yard dash runner, has been appointed admitting physician of Harlem Hospital, it was announced today by Acting Commissioner Edward F. Cadley of the Department of Hospitals. Dr. Carter is a native of Asbury Park, N. J.

NEW YORK WORLD

NOV 17 1928 NEGRO PHYSICIAN GETS HARLEM HOSPITAL JOB

Dr. Joseph Carter, Former Brown Football Star, First of Race in Position

Appointment of the first Negro ever to occupy the post of admitting phys-

ician in a city hospital was announced yesterday by Acting Commissioner Edward F. Cadley of the Department of Hospitals. He is Dr. Joseph Carter, former halfback on the Brown University football team and for three years New England intercollegiate champion in the 100-yard dash.

Dr. Carter is a native of Asbury Park, N. J., where he attended high school. He starred as halfback at Brown in 1921 and 1922 and was graduated in 1923. From there he went to Howard University, Washington, and took up medical work.

His scholarship at Howard led to his election to an honorary fraternal society. He spent a year in Freedman Hospital, Washington, and later practiced medicine in the District of Columbia.

At the Harlem Hospital he will pass on all cases coming in, deciding whether the patient shall stay and receive treatment or be sent home.

GOES TO PARIS CLINICS

Dr. J. R. HILLERY
Sails Friday to attend Foot Clinics in Edinburgh, London, Berlin and Paris.

DR. J. R. HILLERY GOES TO PARIS; ATTEND CLINICS

Leading Podiatrist Invited By Paris Body To Make Address

When the White Star liner, "Ma-jestic," sails on Friday, June 21, one of its outgoing passengers will be Dr. J. R. Hillery, one of New York City's best known podiatrists, who will be en route to Paris, France, by special invitation of the Paris Association of Podiatrists to deliver an address at the International Foot Clinics Congress on "Podiatrics In America," and to demonstrate the Hillery system of bandaging to relieve foot strain.

Dr. Hillery has been practicing his profession in this city for more than twenty years, and has won for himself an enviable rating as one of the best equipped chiropodists in the country. Some of the cases he has handled have been of the most complicated character.

Dr. Hillery, when the application of Negro chiropodists was turned down by the New York County Association, personally secured the services of Counselor John William Smith and fought the case successfully through the courts, eventually removing all bars which had been raised by the association to the admission of colored podiatrists. He made the fight single-handed, the other applicants having accepted the dictum of the association and the return of their checks for the admission fee. As a result, all of the colored practitioners are now members of the association.

Besides having developed a system of bandaging or strapping, which has proved of inestimable advantage in the treatment of his patients, Dr. Hillery has invented a device, for which he was granted letters patent by the U. S. Patent Office in January, 1929, which it is believed, will prove to be of greatest value to people suffering from foot diseases.

The Paris meeting is to be held July 12 to 14. Prior to that, Dr. Hillery will attend clinics in Berlin, Edinburgh and London. He is bearing letters of introduction to European personalities from patients and friends which are unusual in enthusiastic recital of some of the cures which have been effected by the New York doctor.

Given Bon Voyage Party.

A bon voyage party was tendered Dr. Hillery on Monday night, June 17, at his home, 238 West 132nd street, by a group of his fellow-members of the New York County Association of Podiatrists, headed by Dr. Emily C. Charlton, who was assisted by Dr. Charles Mayfield in arranging the affair. It was a gay

occasion, and all present joined in felicitating Dr. Hillery.

One of his grateful patients from Westchester County has presented him a handsome travelling bag for use on the trip.

Alderman Fred R. Moore was present and joined in wishing Dr. Hillery a pleasant and interesting trip.

Dr. Hillery will be accompanied by his niece, Miss Bertha Williams.

Members of the association present were Drs. R. W. Griffin, C. C. Pettit, H. R. Worrell, V. T. Thomas, Emmett Carter, W. J. Carter, George G. Reece, D. L. Best, Emily C. Charlton, E. M. Brown, Marcus Burrill, Charles Mayfield, J. Emanuel, J. B. Johnson.

Other guests were Mrs. J. Hil C. Charlton, E. M. Brown, Margaret Purnell and Miss Williams.

NEGRO MEDICAL SOCIETY MEETS

Local Society to Be Host to Dentists, Doctors and Pharmacists of Section

Members of Negro Medical, Dental and Pharmaceutical societies of Eastern Carolina will be guests of the Rocky Mount colored medical society at a meeting which is to be held in the city tomorrow.

The day's session, which is expected to be marked by large attendance from over this part of the state, will be held at the St. John's Methodist church on Atlantic avenue. Dr. J. A. Tinsley, of Weldon, is president of the united society, while Dr. W. L. Horne, former local dentist, is secretary.

Several local members will take part in the scientific program which has been arranged for the session. Dr. P. W. Burnette will discuss "Follicular Tonsolitis, Diagonis, Treatment and Complications"; Dr. W. M. Sessoms, "Vincent's Angina, Diagnosis and Treatment"; and W. E. Armstrong "General Incompatibility of Drugs."

Upon conclusion of the business session of the gathering, a dinner will be served the visitors.

White Medics

Seek Way for Our Students

Portland, Ore.—Lack of first-class and recognized hospitals for our medical school graduates to take their internship was one of the vital questions before the American Medical association which recently held its annual session in this city. Before a medical school graduate is eligible to take an examination before any state board in this country he must spend one or more years in a recognized hospital. There are only seven first-class race hospitals in the United States and they can accommodate only 50 patients yearly.

The association was told that there are only two medical schools in the United States for our population of 12,000,000 people. These schools are Howard university, Washington, D. C., and Meharry Medical school, Nashville, Tenn. There are 250 students enrolled in each of these schools with each graduating 50 students yearly. White medical schools do not want our students. A few youths with high scholastic records matriculate at a few white schools in northern states. There are barely 100 of our youths enrolled in white medical schools. Only 25 annually graduate from these institutions.

These youths finishing from white medical schools cannot take their internship in white hospitals. The association was informed these graduates must get their training and experience in dubious private hospitals or sanitariums. The association was told to let white medical leaders help our hospitals to improve until they are fit to train internes; let new hospitals be developed, particularly in northern communities; make no discrimination between our students and internes and the white students and internes in schools or hospitals.

MEDICS TO MEET IN
CHARLESTON IN
APRIL

Palmetto Medical Association
Prepares for Annual
Sessions

RECORD CROWD EXPECTED

Convention to have Many Scientific as Well as Social Features

Elaborate plans for a great meeting are being made by the Charleston County Medical Association for the 34th Annual Session of the Palmetto Medical Association.

A record attendance is expected to be present as the local committee has planned several social as well as scientific features.

Dr. Walter G. Alexander of Orange New Jersey, secretary of the National Medical Association will deliver the public address on Wednesday night.

Dr. Roe Remington, director of the S. C. Food Research Commission will lecture on Nutrition. Dr. Leon Banon, County Health Officer will lecture on some phases of Public Health. Dr. Atman Smith, director of Pine Haven Tubercular Sanatorium holds a Clinic on Wednesday afternoon and lecture on Modern Diagnosis and the Treatment of Tuberculosis. Dr. J. A. C. Jackson one of our local physicians has prepared an excellent paper on a rare case of Leukemia, which will indeed be worth hearing.

Amateur Boxing acrobatic acts will feature our smoker and the usual annual reception will be given on Thursday night.

A full scientific program will be published later. The officers of the State Association are:

Dr. R. Wilson, president, Florence; Dr. W. D. Chappelle, Columbia, vice president; Dr. Durham Counts, Columbia; Dr. C. C. Brevard, treasurer, Camden.

Charleston expects a one hundred per cent attendance.

South Carolina.

South Carolina News Briefs

NEGRO DOCTORS MEET.

Charleston, March 27 (AP).—The Palmetto Medical association, composed of the negro physicians, dentists and pharmacists of South Carolina will meet here April 23, 24 and 25.

Dr. Roe E. Remington, director of the South Carolina food research commission, Dr. Leon Banov, Dr. W. T. Smith and Dr. Walter G. Alexander, of Orange, N. J., are among the speakers for the occasion.

PHYSICIANS, DENTISTS IN ANNUAL MEET

Dr. Eaves Heads Tri-State Ass'n

MEMPHIS, Tenn. May 1—(AP)—Physicians, surgeons, and dentists from Tennessee, Arkansas, and Mississippi, gathered here Tuesday, Wednesday and Thursday in attendance upon the annual meeting of the Tri-State Medical and Dental Association.

During the three days leaders of the professions held clinics, mass meetings, and group meetings for the purpose of formulating programs for the improvement of health among Negroes and to devise ways and means to render a greater service. Clinicians, including Dr. Strickland and Dr. E. C. Barnes of Philadelphia, and Dr. George E. Moore, and Dr. Callis of the United States Veterans' Bureau Hospital Number 91, of Tuskegee, Alabama, attended the sessions and conducted clinics.

Among those taking a leading part in the convention was Dr. L. A. West, head of the Mercy Hospital here and president of the National Medical Association. Dr. West, who is one of the wealthiest and most prominent men of this section, placed the facilities of the hospital at the disposal of the visiting medics and was a leader in many discussions.

Dr. John E. Eaves, of the Woodman of Union Hospital, Hot Springs, Ark., was elected president of the Medical Association, with Dr. Elmer Wilkins, chairman of the dental board. Other officers were Dr. C. E. Buckner, of Vicksburg, Miss., vice president; Dr. Frank Hite, secretary; and Dr. J. E. Burke, treasurer. The next meeting of the association will be held here next April.

Tri-State Medical Association Meets

MEMPHIS, Tenn., April 29.—Physicians, surgeons, and dentists from Tennessee, Arkansas, and Mississippi gathered here Tuesday, Wednesday, and Thursday in attendance upon the annual meeting of the Tri-State Medical and Dental Association.

During the three days leaders of the professions held clinics, mass meetings, and group meetings for the purpose of formulating programs for the improvement of health among Negroes and to devise ways and means to render a greater service. Clinicians, including Dr. Strickland and Dr. E. C. Barnes of Philadelphia, and Dr. George E. Moore and Dr. Callis of the United States Veterans' Bureau Hospital Number 91, of Tuskegee, Alabama, attended the sessions and conducted clinics.

Among those taking a leading part in the convention was Dr. L. A. West, head of the Mercy Hospital here and president of the National Medical Association. Dr. West, who is one of the wealthiest and most prominent men of this section, placed the facilities of the hospital at the disposal of the visiting medics and was a leader in many of the discussions.

Dr. John E. Eaves, of the Woodmen of Union Hospital, Hot Springs, Arkansas, was elected president of the Medical Association, with Dr. Elmer Wilkins, chairman of the dental board. Other officers were Dr. C. E. Buckner, Vicksburg, Miss., vice-president; Dr. E. Frank White, secretary, and Dr. J. E. Burke, treasurer. The next meeting of the association will be held here next April.

Medical Council at Johnson City Yesterday

JOHNSON CITY, Tenn.—The annual summer meeting of the Upper East Tennessee Medical Council was held in this city throughout the day yesterday. The morning session began at 11:00 o'clock at which time Dr. A. W. White, Bristol, Tenn., read a paper treating the method of filling abnormal interproximal spaces. During the afternoon Dr. L. P. Whitten, Kingsport, Tenn., discussed "Colitis", Dr. G. D. Riggs, Bristol, gave a treatise on typhoid fever and Dr. A. V. Boston, Cumberland, Ky., read a paper concerning "The Infected Tooth." A meeting open to the public was held at night.

Dr. W. S. E. Hardy, is the only Knoxville physician listed as a member of the Upper East Tennessee Medical Council.

SCORES LACK OF INTEREST IN DENTISTRY

Meharry's President Gives Opinion

Nashville, Tenn., Aug. 23.—In a statement issued here Tuesday by Dr. John J. Mallowney, president of the Meharry Medical college the lack of a sufficient number of dentists and the lack of interest on the part of youths who are qualified to pursue the study of dentistry as a profession were scored severely and deplored.

Tennessee

The fact that less than 50 students graduated from the various dental colleges of the country gave rise to the statement on the part of Dr. Mallowney, who pointed out that of the number graduating in June, 21 completed the course at Meharry and 19 at Howard university, Washington, D. C.

A Tragic Situation.

"This presents a very tragic and deplorable situation," declared Dr. Mallowney. "There is a distinct need of dentists among Negroes throughout the country, and the number who graduated last June would hardly replace those who have died during the year or retired from active practice on account of age or other reasons."

"Equally as tragic is the lack of interest on the part of Negro students who are qualified to pursue the profession in taking up the work. The waiting lists of practically every professional school in the country is overloaded with applications for the college of medicine and surgery, while there is a scarcity of students in the dental school."

Offers Careers

"The reason for this is more than I am able to determine. The dental field offers one of the most promising careers, both from the standpoint of financial returns and opportunities to render real service. Each year we receive a large number of letters from prominent citizens in various cities and localities urging us to send some of our dental graduates to them, pointing out that unless the Negro people can get competent, well-trained dentists of their own group they will be forced to patronize white dentists and that splendid source of income and of service will fall from the Negro group."

After deploring the situation, Dr. Mallowney asserted that if this source of income was removed from our group the group will have only the members themselves to blame. Diligent efforts are being made by Meharry to interest a large number of college graduates to enter the profession of dentistry, and the facilities for such training have been greatly improved and the school is rated as a class A institution.

Chicagoan Makes Similar Charge

Some weeks ago, while attending to business here, Dr. S. W. Smith, prominent physician and surgeon of Chicago, made the same charge which Dr. Mallowney did. Dr. Smith said that Meharry graduates everywhere were being urged to influence a larger number of men and women to pursue the course in dentistry.

Dr. Curren Head of State Medics

Dr. J. A. Curren, well-known local dentist was elected president of the Volunteer State Medical, Dental and Pharmaceutical association which held their session here last week. The selection of a dentist

to head the organization was the first time since the association was launched. The association in voting unanimously to elect Dr. Curren evidenced their confidence in his excellent ability as a well prepared member of the profession and their high esteem for him.

The next meeting of the association will be held in Nashville.

Prominent among the well known members of the professions attending the association were Dr. and Mrs. J. H. Hale, Dr. Walker, Dr. Martin, Dr. Singleton, Dr. Floyd, Dr. Bright, of Nashville; Dr. Logan, Dr. Astrapp, of Chattanooga.

NEED FOR MORE DENTISTS.

Annals News
An effective plea was issued before the Volunteer State Medical Association in session here last week for increased interest on the part of members of the other professions with a view of encouraging more young men of the racial group to study dentistry. The speaker, Dr. J. J. Mullooney, president of Meharry Medical College, told of the numerous physical ailments which members of the Negro racial group are forced to endure because of their inability to receive treatment for their teeth. He declared that all the men inclined toward the medical profession are studying medicine rather than dentistry and as a result many sections are without the services of a dentist, even some of the larger cities.

It has been repeatedly pointed out that dentists receive ample compensation for their services, besides having the opportunity of rendering worthwhile service to humanity. Parents would do well to suggest to their sons the need of entering this important profession instead of selecting one of the overcrowded fields.

Next Session of Old Dominion Medical Society In Western City

At the meeting of the executive committee of the Old Dominion Medical Society, held in Norfolk Sunday, it was decided to hold the annual meeting of the Society in Charlottesville in June. Several other cities were in the field for the convention but the Albemarle county metropolis won the honor of being host this year to the medical men and their wives, also the auxiliaries to the body.

The meeting Sunday was held in the dining room of the Savoy Garden, and was attended, in addition to the local members and officers of the society, by Drs. Barden, Johnson, and Hartwell of Petersburg; Brown, Roane Blackwell and Gilpin of Richmond; Scott and Dickerson of Newport News; Barnes and Reid of Portsmouth; Franklin of Ruthville, and Pierce of Suffolk.

Between sessions the local committee entertained visiting members and a number of guests at dinner, and heard after dinner talks by Major Allen Washington of Hampton Institute; William M. Rich and P. B. Young. Major Washington, who is president of the Negro Organization Society of Virginia discussed the health work of that organization, especially its contribution to the founding and maintenance of Piedmont Sanitarium. Other guests at the dinner were Mrs. D. W. Byrd, president of the Women's Auxiliary to the Society; Mrs. F. S. Barbour, Mrs. W. H. Hughes of Richmond; Mrs. John E. Foster, president of the State Association of Graduate Nurses; Mrs. John T. Givens, Mrs. B. N. King, Mrs. W. E. Bailey.

Dr. G. Hamilton Francis presided at the dinner and Dr. D. W. Byrd, presided over the business sessions.

TIDEWATER MEDICAL SOCIETY MEETS IN NEWPORT NEWS

Dr. C. R. S. Collins Elected President For The Ensuing Year

The quarterly meeting of the Tidewater Medical Society was held at Newport News April 4. After the usual routine of business, Dr. W. P. Dickerson, of Newport News, introduced to

the society Dr. Joseph T. Buxton, chief surgeon at Buxton Hospital, who gave a discussion on "Diagnosis and Treatment of Fractures," illustrated with X-ray pictures. Dr. Buxton's address was enthusiastically received by the society and a vote of thanks extended him.

Dr. A. R. Pugh, of Portsmouth, read a paper on "Diagnosis and Treatment of Syphilis." Dr. Pugh's paper was taken up and discussed at great length by Dr. J. D. Jackson, Dr. D. W. Byrd and Dr. E. D. Burke of Norfolk, Dr. P. L. Scott of Newport News and Dr. W. E. Reid, of Portsmouth. Some very interesting cases, histories and records were presented.

For more than twenty years the Tidewater Medical Society has been an outstanding scientific body whose purpose and aim have been to bring together the physicians of Tidewater, Va., for the study and discussion of the various phases of medical science and those problems which affect the practice of medicine and the health situation among our group.

The following officers were elected for the ensuing year: President, Dr. C. R. S. Collins of Norfolk; first vice president, Dr. J. M. Hayes, of Hampton; second vice president, Dr. A. S. Christian, of Portsmouth; secretary-treasurer, Dr. W. E. Bailey of Norfolk.

STATE EMBALMERS FUNERAL DIRECTORS MEET NEXT WEEK

Second Annual Convention Will Be Held In Richmond Wed- nesday and Thursday

The second annual meeting of the Funeral Directors and Licensed Embalmers Association of Virginia will be held in Richmond April 24-25.

The matter of public relations will occupy an important part on the program of this convention. Topics to be discussed are: "How Can Better Public Relations Be Established," "Better Ways for Better Business," and "What legislative action should be asked to protect funeral directors against losses, where minors are concerned, where beneficiaries are dead or away, or where insurance or societies are the only means of paying the funeral bill."

Among the principal speakers for the convention will be Major Christian, chairman, State Board of Embalming and Rev. W. T. Ransome.

Prof. Collier, of New York, with the Dodge Chemical and Richmond Wood-working Company will give a demonstration at the Medical College.

On the evening of the closing day a stag at the Elks Auditorium will be the special social feature.

Officers of the association are James M. Wilkerson, Petersburg, president; H. Jackson, Norfolk, vice president; W. C. Arnold, Alexandria, treasurer; Thomas

H. Brown, Petersburg, secretary and J. H. Weldon, Oldham, chaplain.

Executive committee—W. H. Satterfield, Hampton; C. V. Wilson, Lynchburg; Ralph Jones, Berkley; A. D. Price, Richmond, and R. C. Scott, Richmond, chairman.

TIDEWATER MEDICAL SOCIETY MEETS AT BAYSHORE TUESDAY

Scientific Program And Social Features Promise To Be Best In History

The Tidewater Medical Society of Virginia holds its twenty-ninth annual session at Bayshore Hotel Pavilion, Buckroe Beach, Wednesday, July 3. A large attendance including visiting guests, is expected.

Special effort has been made to arrange the best scientific program from the best available men in the profession today.

The main social feature will be an informal dance at Bayshore Pavilion Wednesday night.

The Medical Society was founded at Newport News by local physicians in 1900 with Dr. W. R. Granger, as the first president and Dr. W. E. Jones, secretary-treasurer. The other founding members were, Drs. W. P. Dickerson, P. A. Scott, W. E. Adams, Fuller, J. J. France, W. E. Reid, W. M. Troy, Jarvis Bowers, P. H. Barber, J. Z. Lycock and A. B. Green.

The society has rendered service to the profession locally during its existence, aiming for enhancement of both science and ethics.

The present officers are, Dr. C. R. S. Collins, president; J. M. Hayes, M. D., 1st vice-president; A. L. Christian, M. D., 2nd vice-president; W. M. Bailey, M. D., secretary-treasurer; W. P. Dickerson, M. D., D. W. Byrd, M. D., W. E. Reid, M. D., G. Hamilton Francis, M. D., and E. D. Burke, M. D., members of the executive committee.

The scientific section of the program will consist of a paper on "Surgical Treatment of Tubal Diseases" by H. D. Howe, M. D., surgeon-in-chief of Dixie Hospital; a paper, "Non Surgical Treatment of Certain Gynecological Conditions," L. E. McCauley, M. D. surgeon-in-chief of McCauley Hospital; Raleigh, N. C.; paper, "Sensory Bloc," F. D. Whitby, A. B., M. D., Washington D. C.; assistant professor of Neurology Howard University Medical College.

Virginia.

24TH ANNUAL MEETING HELD JUNE 11-13 IN CHARLOTTESVILLE WENT ON RECORD FOR A LARGER CAMPAIGN

Sessions Were Addressed By Eminent Men In The Medical Profession—Tuberculosis Takes Rank on Program of Doctors—Franklin Elected President.

By G. HAMILTON FRANCIS
O. D. M. S. Journalist)

The Old Dominion Medical Society comprising the colored physicians of Virginia held its 24th annual session in the New Jefferson high school building, Charlottesville June 11, 12, 13, with a very representative attendance. Sessions began daily at 11 a. m., and continued until 2 p. m., being devoted to clinics and addresses touching upon the foremost advances of medical science by some of the foremost characters of the profession.

Among the visiting physicians and surgeons who contributed to the clinics and discussions were T. S. Burwell, M. D. of Philadelphia, president of the National Medical Association; D. C. Smith, M. D., dermatologist of the University of Virginia Hospital; W. E. Brown, M. D., of the Blue Ridge Sanatorium; Mr. Charles Stevens of Parke Davis Co., manufacturing chemists, Detroit, Mich.; James L. Martin, M. D., of Philadelphia.

Giving increasing attention to the health conditions in the State and particularly as they affect the colored group, the Society went on record for redoubling its efforts in conjunction with the State Health Department to intensify its program for the improvement of Negro health conditions. A resolution to this effect was forwarded to Dr. Ennion G. Williams, State commissioner of health.

A resolution embodying special thanks to Dr. D. C. Smith of the University of Virginia, who elaborated on diagnosis and treatment of syphilis and to Dr. W. E. Brown, of Blue Ridge Sanatorium, who gave clinical talks on tuberculosis, were also adopted and forwarded to the lecturers.

Dr. Franklin Elected President

Dr. C. S. Franklin, of Ruthville, Va., was elected president, while Lynchburg, was chosen as the next place of meeting, June 11, 12, 13, 1930. A vote of thanks was extended to Dr. W. E. Reid, of Portsmouth, retiring president for untiring devotion to the projection of the society's health program throughout the State during his incumbency. The convention was called to order

Dental Association Meets at Popular Virginia Resort

Buckroe Beach, Va., Aug. 23.—Bay Shore hotel this week has been host to the members of the Interstate Dental association, their families, and to the many old-timers who can always be found at the resort during the last half of August. The 16th annual session of the dental organization began on Tuesday morning with the president, Dr. Albert O. Reid, Baltimore, Md., presiding. Many of the attendants to the meetings reached the hotel during the past week-end, in most cases bringing their families.

On Tuesday morning Rev. E. H. Hamilton rendered the invocation. Don Davis, one of the directors of the Hampton People's Nursing & Loan association, welcomed the dentists to the vicinity. After the business formalities the organization listened to the president's address and then to several papers: "Oral and Physical Diagnosis," Dr. W. T. Grady, Washington, D. C.; "Dental Ethics," Dr. W. H. Logan, Petersburg, Va.; "Pre and Post-natal Care," Dr. Fred I. Morton, Virginia state board of health.

Hold Clinics

Wednesday was given over entirely to clinics. Dr. Adolphus Walton, associate professor of prosthetic dentistry, Howard university, conducted one on "Checking for Centric Occlusion; the Correction and Grinding to Avoid Traumatic Occlusion." Dr. Richard L. Simpson made demonstrations of "Impressions for Partial Cases by the Sectional Method" and "Removable Gold Dentures and Stress Breakers."

On Thursday the L. D. Caulk Dental Manufacturing company, Milford, Del., sent its representative, Mr. Wakefield, who led a lecture and discussion on matters relating to dentistry. Dr. E. B. Wetmore, Morristown, N. J., conducted a clinic on "The Bunce-Kanouse Technique of Full Denture Construction," and Dr. W. S. Wiley, Newark, N. J., demonstrated "The Value of X-ray Diagnosis in Dentistry." Drs. Wetmore and Wiley attended the sessions as the delegates of the North Jersey Dental society. Other clinics were held by Drs. D. A. Ferguson, Richmond, Va.; J. M. Timsley, Richmond, Va., and Paul C. Mumma of the Rothstein Dental Laboratory, Washington, D. C.

Lecturers Make Reports

Friday morning the interstate lecturers made their reports. Dr. Roscoe C. Brown, Washington, D. C., spoke of his work at Meharry Medical school, and Dr. A. M. Rivera, Greensboro, N. C., related his experiences as lecturer at the Howard university dental college. Drs. J. A. Childs and R. B. Taylor, Richmond, Va., gave a clinical demonstration of the use of ethyl chloride spray as a general anesthesia, and Dr. J. A. Turner, Howard university dental school, read a paper on "The Diagnosis and Treatment of Vincent's Disease."

A large part of every session was given over to a symposium on the

subjects discussed. Many questions were asked and much interest was displayed by all the members attending the session. The annual dental prom, which was held on Thursday evening, was attended by all the dentists, many invited friends from many states, and a large number of professional people of the Tidewater section of Virginia. Music for the occasion was furnished by Ben Jones' Musical Aces, Norfolk, Va.

Attracts Visitors

During the week of the dental convention many other persons besides the dentists united to swell the register of the Bay Shore hotel. The Venerable Archdeacon James S. Russell, Lawrenceville, Va., principal of the St. Paul Normal and Industrial school, was here. The archdeacon was recently granted the Harmon award for promoting educational work. Others were Miss Nannie M. Erby, nurse at the Douglass hospital, Philadelphia, Pa.; Rev. W. H. Dean, Pittsburg, Va., and F. L. Atkins, business manager of Winston-Salem Teachers' college. Mr. Atkins had in his party his brother, H. B. Atkins, Cleveland, and his sister, Miss T. Atkins of the library stag, Tuskegee institute.

Among the other guests from the several states were the following: New York, Mr. and Mrs. N. B. Hamlett, Utica; James E. Flodger, Misses Carine Kelsey, Florence Phillips and Mrs. Josie Russell, New York City; Pennsylvania, Miss Pearl M. Whiteman and Mrs. Ferdinand Upshur; New Jersey, Miss Kay Hughes and E. Williams; Washington, D. C., Mrs. Sadie L. Engraves, Mrs. Sylvia P. Patterson, Mrs. Roberta Harris, Mr. and Mrs. L. A. Rhodes, Mr. and Mrs. L. McCombs, Mr. and Mrs. C. B. Edwards, Dr. George H. Butcher, A. P. Cook, Thomas W. Edwards, Dr. Q. Bernard King and wife, Dr. Eugene E. T. Mavritte; North Carolina, Dr. H. L. Fleming, C. A. Haywood, J. D. Lewis, Bennie Thornton, C. A. Higgh Mr. and Mrs. C. F. Pope, all of Raleigh, and W. E. Bryant; West Virginia, Mrs. J. S. Coleman, Mrs. H. S. Watkins, Dr. and Mrs. F. M. Hyder; Virginia, Dr. and Mrs. D. A. Ferguson, Dr. J. M. G. Ramsay, Miss Fannie Borden, Miss Elizabeth Borden, B. T. Bradshaw, Byron A. Anderson, Henry Mucles, Dr. D. B. Williams, Mrs. Leola Mucles, Bevilly Jackson, Mr. and Mrs. Spencer Harper, L. M. Hackett, Mrs. Amanda B. Smith, Dr. J. M. Tinsley. From Norfolk came W. E. Harvey, H. L. Smith, Miss Bernice Land, H. Johnson, Misses Velma Coppage, Hilda C. Selden, Mary Holmes, E. Meade Daughtry, Mrs. V. F. Williams, Mr. and Mrs. Robert Bowden, Mrs. Anna S. Daniels, Miss Louise B. Alston.

Trinidad's First Woman

Doctor Visits New York

Dr. L. C. Wharton, M. R. C. S., native of Trinidad, B. W. I., was last week, a passenger in transit from England to the West Indies. She stopped here to pay a visit to some of her relatives, resident in Harlem.

Dr. Wharton, who is a niece of L. C. Wharton, Mayor of San Fernando, the second city on the Island of Trinidad, left her Island home eight years ago to study medicine. Returning home she will be the first colored woman doctor practicing there.

She was chaperoned, among others, by Dr. Mae Chinn; Dr. C. A. Fetioui showed her around Harlem Hospital; Dr. Ellis introduced her
